

FAQIRI
STEEL
QUALITY & STRENGTH

About Faqiri Steel

Founded in 2008, Faqiri Steel Production stands as a preeminent industry leader, renowned for producing steel products in Afghanistan. Our state-of-the-art facility, located within the Industrial Parks of Kabul, is equipped with a robust infrastructure. This includes a highcapacity steel melting plant, a semi-automatic steel production mill with substantial capacity, a dedicated maintenance workshop, and a modern laboratory for testing of raw materials and finished products.

We take great pride in our pioneering spirit to introduce a range of products to Afghanistan, including Reinforcing Bars, Tee Sections (T-Bars), Round Bars, Channel Bars, Flat Bars, and Square Bars, reflecting our commitment to advancing steel offering nationwide. Faqiri Steel Production remains unwavering in its dedication to excellence, playing a significant role in the growth and advancement of country's steel manufacturing landscape.

Technologies & Equipments

We utilise one of the most advanced re-rolling mill technologies in the industry. This technology enables us to continuously manufacture a diverse range of Structural Bars and Deformed Bars. Our state-of-the-art equipment ensures a high production volume, aligning with both national and international quality standards.

The recent incorporation of a state-of-the-art melt furnace represents a significant achievement for our company and the nation. This enhancement empowers us to melt and refine metal with the desired chemical composition, resulting in billets that meet stringent international standards.

With modern machinery and sophisticated manufacturing technology at our disposal, our company has garnered an unparalleled reputation for delivering superior-quality products and efficient services

Our Foundation

Faqiri Steel Production is founded on two robust pillars:

- Building strong relationships with our clients.
- Providing dedicated service to our customers.

We ensure customer satisfaction through the production of high-quality steel products at competitive prices, offering prompt responses, and maintaining ample stock to meet customer needs without delays.

Chairman's Message

Over a decade ago, Faqiri Steel pioneered as one of the first steel manufacturing facilities in Afghanistan. From meticulously sourcing and importing cutting-edge machinery to assembling a team of industry-leading professionals, our journey has been both challenging and deeply fulfilling.

Today, Faqiri Steel proudly stands as one of the nation's most sought-after steel manufacturers, earning a distinguished reputation as the 'best in the business.' Specialising in crafting finished products from abundant scraps, our state-of-the-art facility, equipped with the latest machinery, and our team of experienced engineers and technical professionals ensure we stay ahead in both operation and innovation.

This dedication allows us to better serve our customers. At Faqiri Steel, we are committed to delivering the highest quality steel products with swift turnaround times and competitive pricing. Our timely service and unwavering support have positioned us as the preferred partners for some of the nation's most discerning customers.

I am optimistic about the future of Faqiri Steel, marked by continuous investments in larger facilities, advanced equipment, and the right talent. Our vision includes the establishment of additional factories across diverse regions of Afghanistan, along with immediate plans to expand our product portfolio to meet the growing demands of our esteemed customers.

Faqiri
CEO, FAQIRI STEEL

Our Mission

To expand our facilities, product line, and service offerings across Afghanistan to rebuild the country and shape a better future.

Our Vision

To dominate the wholesale market in Afghanistan by providing superior quality steel products across the country, addressing clients' needs, and forming lasting partnerships.

Our Strengths

The prowess and capacity of Faqiri Steel are embodied in our exceptional staff, workers, and management. Our team consists of diligent individuals who possess the strength, capacity, and unwavering dedication required to manufacture our superior steel products.

Our Values

- Teamwork.
- Safety above all.
- Quality & Strength.
- Be the Customer's Choice.
- Focus on Results & Success.
- Integrity with all stakeholders.
- Economic, Social & Environmental Sustainability.
- Continuously improvement of our Manufacturing processes.

Our Team

At the core of our success is a dynamic workforce that propels us forward. To fortify our standing as an innovative, progressive, and world-class organisation, we actively seek dedicated individuals with the drive, determination, and ambition to succeed.

Executive Team

As a cohesive team, our objective is to elevate the effectiveness and efficiency of the business through the implementation of new procedures and processes. This endeavour aims to establish a stable platform for the company's future growth and development.

Finance Team

Our Finance team is the backbone of our company, working collaboratively with customers and suppliers as a cohesive unit to ensure the efficient and effective operation of the business.

Marketing Team

Our success pivots on working closely with our clients. With dedicated Marketing Managers and an in-house team of qualified engineers, along with our experienced staff, we deliver the finest products to customers, utilising our knowledge and expertise.

Sales Team

At Faqiri Steel, we are committed to providing friendly assistance to both new and existing customers. We take pride in the enduring business relationships we have built over the years and our aim is to expand our services throughout Afghanistan.

Production Team

With a strong team of experienced professionals in the melting and manufacturing of steel, managed by our production manager who oversees the new product introduction process, and with a dedicated foreman, our primary goal is to guarantee timely delivery while consistently meeting the high expectations of our customers.

Warehouse Team

Our highly qualified and experienced warehouse staff are well aware of customers' demands and are working very hard to ensure we have sufficient stock to meet our customers' needs without any delay.

Award & Certificates

Certificate

This is to Certify that General Technical Delivery Conditions for Hot-Rolled Products Compliance of the

FAQIRI STEEL PRODUCTION

Industrial Park Pul-E- Charkhi, Bagram New Road, District-18, Kabul, Afghanistan.

has been assessed and found to be in accordance with the requirements standard detailed below

ISO 630-1:2011

This Certificate is valid for the following scope

Production of steel Beam, Angle Bar, T-iron, Re Bar, Flat Bar, Square Bar, Round Bar and Channel Bar

Certificate No : GT-XIX-07-6263
 Issue Date : 27 July 2019
 Valid Until : 26 July 2022
 Nacc Code : DJ-28-75

Adpanghal
 Authorised Signatory
 WRG Certification

This certificate remains the property of American International Accreditation Organization-Bureau of Accredited Registrars, (USA)

Validity of the certificate is subject to successful completion of surveillance audits. Our Products

Our products not only exhibit high strength but also demonstrate superior deformation ability, excellent bendability, easy weldability, and outstanding bond-strength. To uphold the highest quality standards, we manufacture our products using the finest raw materials that conform to both national and international standards and specifications.

Re Bar

Rebar, also known as Reinforcing Bar, Steel Rebar and Mild Steel Reinforcing Bar.

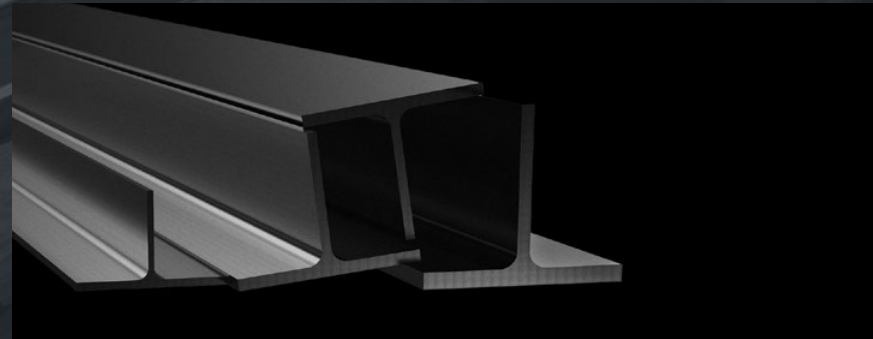

Our Re Bars are available in a number of grades and sizes and ready for immediate dispatch.

Tee Iron

Tees (T), also known as T Section, Tee Bar, Metal Tee, Steel Tee.

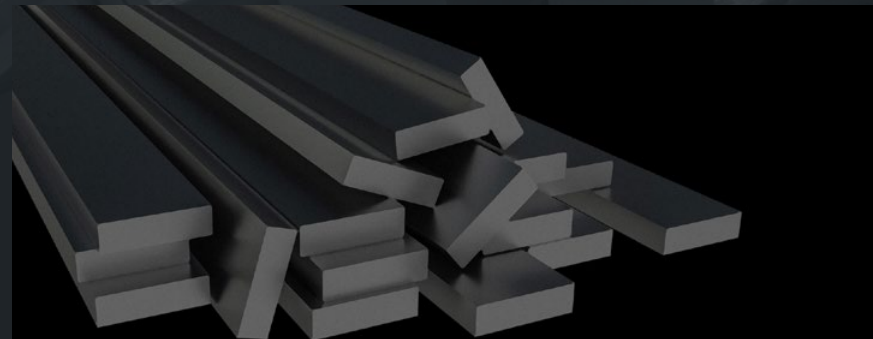

Our Tee Sections are available in a number of grades and sizes and ready for immediate dispatch.

Flat Bar

Flat Bar, also known as Mild Steel Flat, Steel Flat Bar and Flat Metal Bar.

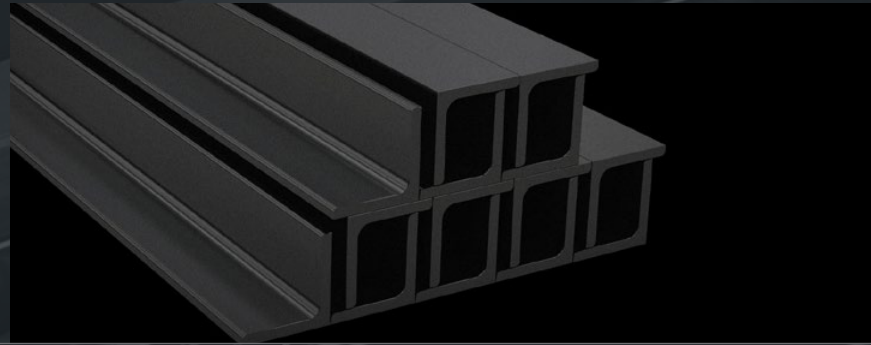

Our Flat Bars are available in a number of grades and sizes and ready for immediate dispatch.

Angle Bar

Angle Bar, also known as Angles, Rolled Steel Angle (RSA) and Mild Steel Equal Angle (EA).

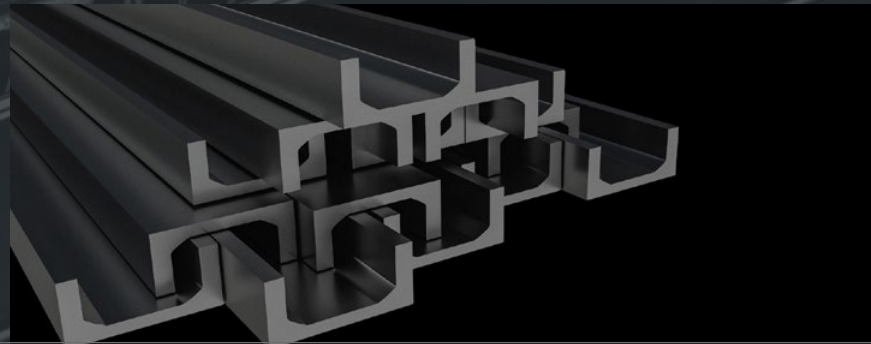

Our Angle Bars are available in a number of grades and sizes and ready for immediate dispatch.

Channel Bar

Channel Bar, also known as C Section and Steel Channels.

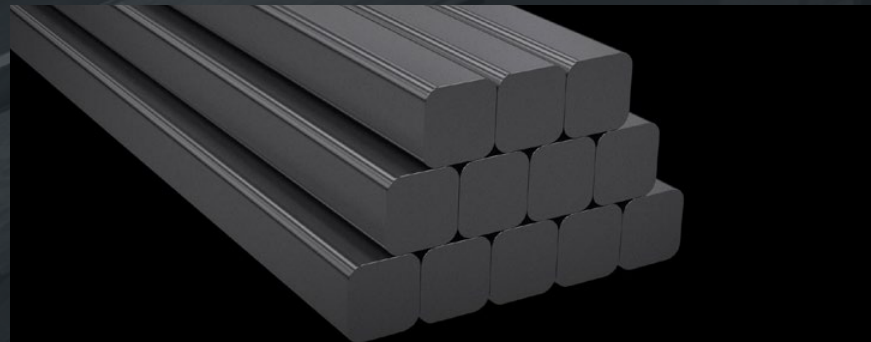

Our Channel Bars are available in a number of grades and sizes and ready for immediate dispatch.

Square Bar

Square bars, also known as Square Steel, Squares and Square Metal Bar.

Our Square Bars are available in a number of grades and sizes and ready for immediate dispatch.

Round Bars

Round Bar, also known as Steel Rod, Steel Rounds, Round Bar, Steel Round Bar and Round Metal Bar.

Our Round Bars are available in a number of grades and sizes and ready for immediate dispatch.

Process & Facilities

Sustainability:

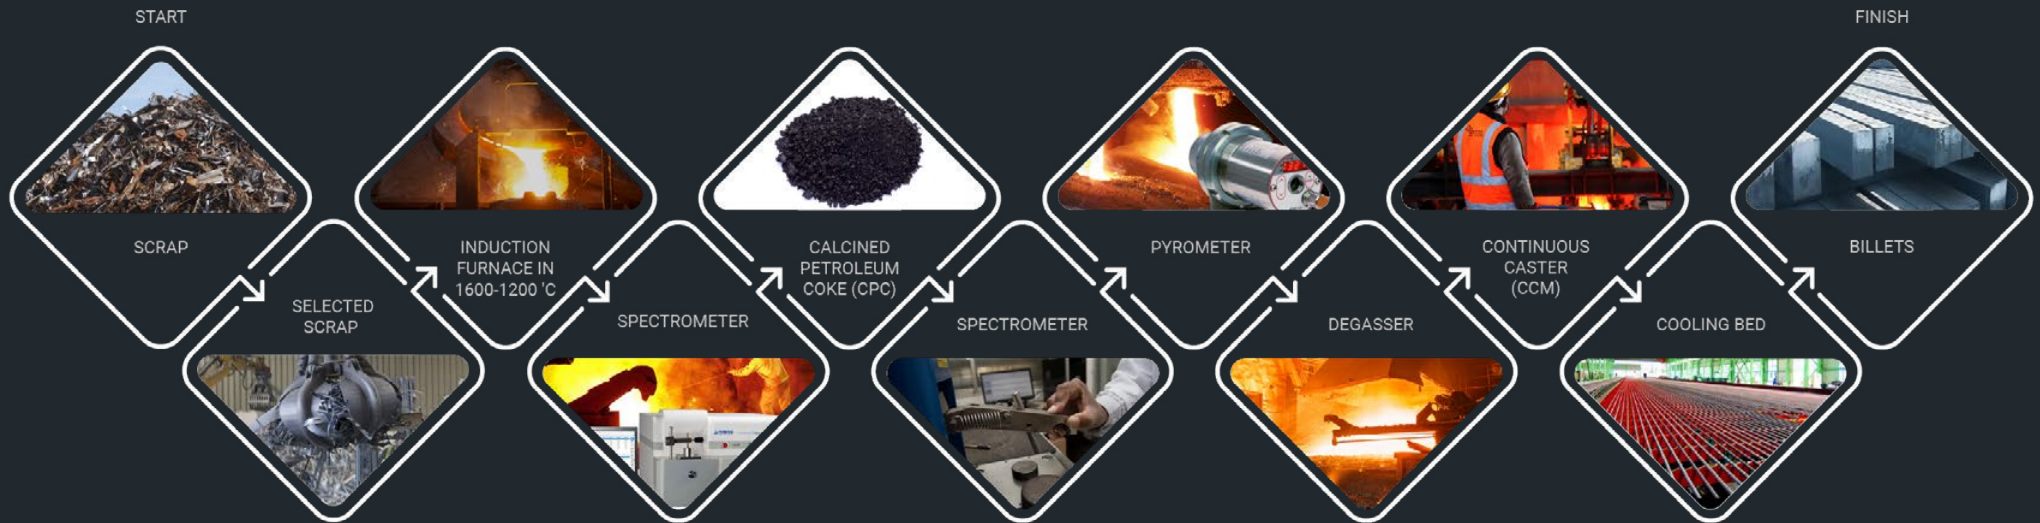

Steel is one of the few materials with a truly closed recycling loop, not consumed but used repeatedly without any loss of quality or strength. Unlike most materials, steel can be 'upcycled,' enhancing its quality and strength through recycling

For this reason, Steel is a truly sustainable material, which is why Faqiri Steel strives to produce products from abandoned scrap in Afghanistan through responsible and best practice processes and procedures. In doing so, we not only contribute to the economy, but also prioritise recycling and reusing abandoned scrap extensively to reduce resource utilisation

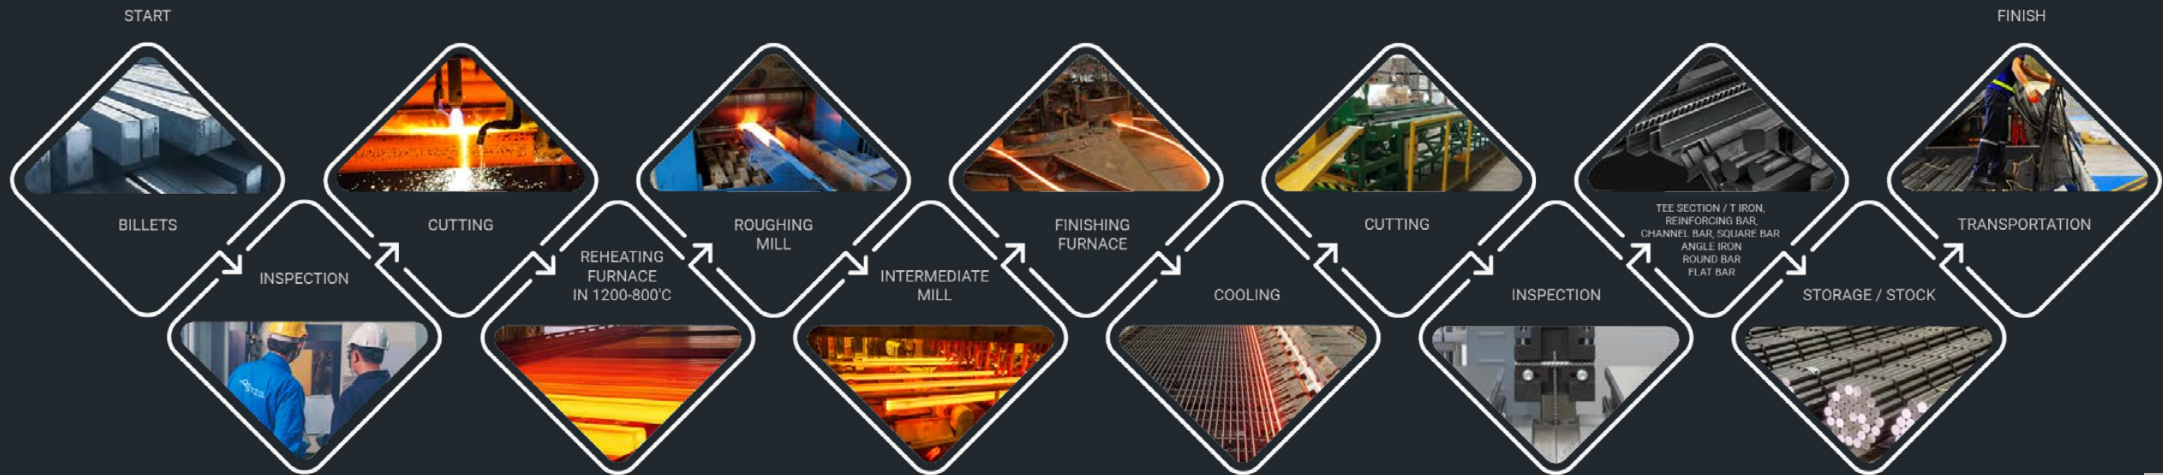

Sustainability is at the core of our operations. As one of the nation's leading steel producers, we manage our operations responsibly, continuously improving our systems and processes, and investing in up-to-date technology to enhance the sustainable performance of our products and processes, ensuring they meet, and preferably exceed, the standards set by regulators.
